

Rectifier Shelf - 4 Position

The ARS-4 rectifier shelf has been designed to allow up to 4x RM1848 rectifiers to be quickly and easily installed into a DC Power System.

It has been designed to mount into a standard 19" rack and occupies 1U of vertical height and 300mm of depth (including space at the rear for ventilation requirements).

When fully configured the ARS-4 accommodates 4x RM1848 rectifier modules and has a total capacity of 7.2kW.

The ARS-4 interfaces with the SM range of supervisory modules to control and monitor the rectifiers.

- 4x RM1848 rectifier positions.
- Easily mounted in a 19" rack.
- 1U of vertical height.
- Up to 7.2kW output power.
- Interfaces with the SM range of supervisory modules.
- Ease of installation.
- Compact design.
