

Rectifier Shelf - 9 Position

The ARS-9-5U rectifier shelf has been designed to allow up to 9x RM3048 rectifiers to be quickly and easily installed into a DC Power System.

It has been designed to mount into a standard 19" rack and occupies 5U of vertical height and 350mm of depth (including space at the rear for ventilation requirements).

When fully configured the ARS-9-5U accommodates 9x RM3048 rectifier modules and has a total capacity of up to 27.0kW.

The ARS-9-5U interfaces with the SM range of supervisory modules to control and monitor the power system.

- 9x RM3048 rectifier positions.
- Easily mounted in a 19" rack.
- 5U of vertical height.
- Up to 27.0kW output power.
- Interfaces with the SM range of supervisory modules.
- Ease of installation.
